25X1

The following decisions were reached at this meeting:

1. [REDACTED] is to modify the [REDACTED] trigger to provide for an increased time constant. This will be tested for a minimum workable interval between 15 and 240 sec. 25X1
2. The [REDACTED] package will be tested with the entire system under operation and a report will be forwarded upon completion. 25X1
3. The camera proper will be subjected to a high and low temp. test at 0°F and 150°F (camera operating) to determine limits.
4. A dust tight, quilted blimp will be completed for delivery by November 1959.
5. A light weight, compact shipping case will be provided for the camera, Magazine, accessories and sensor.
6. An operational and maintenance manual will be provided.
